9-11 April, 2026, Sousse Tunisia

[Link to Registration](#)

### Workshop Objective

This workshop aims to bring together key players in the agricultural world, including farmers, manufacturers, startups, researchers, and institutions, around a common goal: agricultural innovation through technology and applied research. It also aims to explore the latest technological and digital advances in the agricultural sector, including automation, AI, IoT, communication, and data analysis, to optimize resources, enhance productivity, and reduce costs. Through lectures, demonstrations, and workshops, participants will discover how Agriculture 5.0 can address the food, climate, and economic challenges of tomorrow and foster the development of partnerships in this rapidly evolving sector.

To express your interest in participating in this event, we invite you to fill out the online form available via Microsoft Forms: <https://forms.office.com/r/VeLmD71QqQ>

### Steering Committee

- Prof. Ali Gharsallah, Tunisia
- Prof. Jordi Morató Farreras, Spain
- Prof. C.J. Reddy, USA
- Prof. Bhaskar Gupta, India
- Prof. Saleh Sadeg, Libya
- Prof. Joseph Kaudjhis, Ivory Coast
- Prof. Hatem Ben Tahar, Tunisia
- Prof. Hichem Trabelsi, Tunisia
- Prof. Adnane Cherif, Tunisia
- Prof. Mohsen Machhout, Tunisia
- Prof. Lotfi Osman, Tunisia

### Stands & Exhibitions

- Connected sensors.
- Smart irrigation.
- Agricultural robotics: autonomous tractors, use of drones.
- Internet of Things (IoT): real-time monitoring of crops and livestock.
- Big Data & Artificial Intelligence: predictive analysis for yield optimization.
- Remote sensing & satellites for monitoring and data collection.
- Application of RFID in agriculture.
- Hypotonic crops.
- Aquaculture.
- Practical cases & testimonials: farmers, startups, and pilot projects in Africa, Europe, and China.

### List of Participants

- University researchers
- Engineers & Experts
- Foreign speakers
- Investors
- Industrialists and agricultural equipment manufacturers
- Startups
- Farmers
- Officials from the Ministry of Higher Education and Scientific Research and the Ministry of Agriculture
- Non-governmental organization

### Participation Opportunity

This workshop will also be an excellent opportunity for university researchers to submit their papers dealing with the field of smart agriculture, knowing that prizes will be awarded to the 3 best papers.

**The deadline for submitting papers is set for 25-03-2026**

### Stands & Exhibitions

Reserved stands will be set up to allow companies, startups and institutions to:

- Present their innovative solutions (IoT, AI, robotics, sensors, drones, big data, etc.)
- Presentation and demonstration of prototypes of agricultural materials.
- Promote products and services for smarter, more sustainable, and more profitable agriculture.
